The Recycling Times

HADCO Group's Recycling Division Monthly E-Newsletter

Welcome to HADCO Group's Recycling Division

The HADCO Group of Companies has aligned itself with United Nations Global Goal #12 - Responsible Consumption and Production Patterns with the expansion of our Recycling Division.

SUSTAINABLE DEVELOPMENT GOALS
12 RESPONSIBLE CONSUMPTION AND PRODUCTION

"OUR RECYCLING COMPANIES PROVIDE HASSLE-FREE SOLUTIONS FOR THE B2B SECTOR."

Kevin Whiteman - Managing Director, HADCO Group - Recycling Division.

The Division consist of three subsidiaries; New Age Recycling, Ecoimpact and the operations of Caribbean Battery Recycling, each targeting a different area.

We believe it is vital that the business community supports the growing recycling culture in Trinidad and Tobago by responsibly disposing of their waste materials.

Our recycling companies provide hassle-free solutions for the B2B sector such as free waste materials collection.

HADCO GROUP

New Age Recycling

Wastepaper, Cardboard,
TetraPak and Aluminium Cans

New Age Recycling collects wastepaper, cardboard, TetraPak and aluminium cans from offices, businesses and communities. After sorting and baling, the paper is sent to local mills for recycling, while all other materials are sent to international mills to be recycled into raw materials for the manufacturing of new products.

EcoImpact

Used Vegetable Oil

Ecoimpact collects used vegetable oil from restaurants that would otherwise have been dumped, and processes it for export to international manufacturers to be used in bio-fuel production.

Caribbean Battery Recycling

Used Lead Acid Batteries

Caribbean Battery Recycling offers collection and disposal of used lead acid batteries. The batteries are then exported to international smelters where the lead is extracted and recycled into new-lead-based products.

Recycling Tips

- Save space in your home or office by flattening your cardboard boxes for collection.
- Re-use plastic water bottles to store used cooking oil.
- Wrap your used lead acid batteries in old newspaper and store in a cool, dry place to avoid leakage.

Get Involved!

Businesses, companies and individuals interested in responsibly disposing of their recyclable waste please contact us at:
