

ECOIMPACT WHO ARE WE?

ECOIMPACT'S FOCUS IS THE COLLECTION OF WASTE VEGETABLE OIL (WVO) FROM RESTAURANTS, COMMERCIAL KITCHENS AND RESIDENTIAL HOMES IN TRINIDAD AND TOBAGO.

The WVO collected is processed locally to be used in the production of alternative fuels internationally. Ecoimpact's collection service prevents these oils from ending up in our waterways and landfills, greatly reducing its negative impact on the environment.

Our service is free. We are here to help you reduce your environmental impact with the responsible disposal of WVO.

THE ECOIMPACT SEAL OF ACTION

The Ecoimpact Seal Of Action program was designed to encourage companies to go the extra mile in the reduction of their environmental impact.

We have designed the attractive Seal Of Action logo which will be available to all our suppliers in the marketing of their products and services. This will allow our suppliers to benefit from the goodwill of being known as a company that is making an effort to be a sustainable and socially responsible entity.

Additionally, all our suppliers who are a part of the Seal Of Action program will receive an environmental certificate to display at their offices/outlets and their company's profile will be listed on our website.

ECO OIL BINS

TIRED OF POURING YOUR WVO DOWN THE DRAIN?

At the end of 2018 Ecoimpact decided to launch the **ECO OIL BIN** program targeted at residential communities in order to provide a convenient and responsible way to dispose of WVO from their homes.

In this program **ECO OIL BINS** are placed at various locations throughout Trinidad and Tobago where residents can easily drop off their WVO, in an effort to reduce their environmental impact.

Visit our website and social media platforms for updates on new and existing **ECO OIL BIN** locations.

BECOME A DROP OFF POINT FOR WVO

Businesses or communities that have a recycling program or would like to be a drop off point can request an **ECO OIL BIN**. Ecoimpact's team of drivers are on the road Monday to Friday for collection of WVO and regular checks will be made to remove the oil containers and maintain the bins.

ECO OIL BINS AWARENESS

- **ECO OIL BINS** CAN BE IDENTIFIED BY **ECOIMPACT** BRANDING
- THESE BINS ARE FOR THE DISPOSAL AND RECYCLING OF WVO ONLY
- INSTRUCTIONS AND INFORMATION FOR CORRECT DISPOSAL OF WVO CAN BE FOUND ON **ECOIMPACT'S** WEBSITE AND SOCIAL MEDIA PLATFORMS

HOW DO WE COLLECT?

PUMPING OF BARRELS, OIL TANKS AND OIL TRAPS

PICK-UP FROM YOUR BUSINESS OR RESIDENCE MONDAY TO FRIDAY
